15th December 1992

Ladies and Gentlemen,

It is my pleasure to welcome you all to this ceremony to mark the Stamp Release of Stephen Smith, father of Rocket Mails in India. As a philatelist it had been my desire and must have been the desire of every philatelist of this city that this stamp should be released from Calcutta. This would be most fitting tribute that philatelists in particular along with others could pay to this pioneer astro-philatelist who devoted a major portion of his carrier and life at Calcutta.

However, I would not hesitate to say that I have deep regrets that this function could not be organised on 14th February 1992 which date his birth centenary completes due to several practical problems and procedural delay. But our continued efforts have finally paid off and a stamp could ultimately be released today.

I take this opportunity to thank you all and the postal department for finally realising the importance of the occasion and releasing the stamp.

Yours sincerely,

D. N. JATIA

Stephen Smith Centenary Celebration
Calcutta

Dear Mr Gupta,

The President and Members of the AUSTRALIAN AIR MAIL SOCIETY are pleased to join with the ISPC Friendship Society in honouring the Centenary of the birth of Stephen Smith. May his memory and wonderful achievements live forever in the annals of the aerophilatelic history of India and indeed of the world.

Hon. Secretary

FEDERATION INTERNATIONALE DE PHILATELIE

Section for Astrophilately

Dear Ladies and Gentlemen

The STEPHEN SMITH CENTENARY CELEBRATION, organized under the auspices of the Philatelic Congress of India, devoted to one of the substantial early rocket-pioneers, is highly welcomed by astrophilatelists.

The period when in the 30ies a group of experimenters strived for the aim of transmitting mail by use of rockets plays an important role in Astrophilately.

By developing different kinds of rocket technics — units and propulsions and equipping their tiny rockets not only with mail but also with scientific instruments and others more, they paved the way for later outer space science and spaceflight.

Ing. STEPHEN Hector Taylor-SMITH, who performed his rocket experiments in India and Sikkim during the 30ies until the end of the 2. worldwar, ranks with the most important pioneers who were engaged with realizing transmission of mail by rockets.

His efforts to provide people in flood areas as soon as possible with medicine, food, newspaper clippings and mail by means of rockets, brought significant technical achievements and scientific findings.

He was the first who succeeded in transporting living beings like a cock and a hen, a snake and mice in his rockets, proving that they can survive weightlessness; 20 years before the Soviet Union sent their space dogs aloft.

It may be of special interest for the youth that Stephen Smith devoted a number of rocket experiments to Boy Scouts, by transmitting Messages to their founder Chief Baden-Powell and his wife and performing propaganda rocket launches in the presence of hundreds of Boy Scouts and his Excellency Chief Scout of India.

The 'Stephen Smith Centenary Celebration' may contribute that the interest in this fascinating beginning and the later progress in space exploration arise amongst the philatelists in India, known as a very active country in space research with nowadays state-owned facilities of rocket sites, where covers of event with postmarks of date and place of rocket-launches are available and with cosmonaut Rakesh Sharma, who performed a successful space-flight within the USSR / INDIA Intercosmos-program, together with Russian cosmonauts.

It was Stephen Smith who fascinated the Indian people in the 30ies by realising Rocket-mail and visualising future conquest of space.

Astrophilately gives us the possibility to record his outstanding work and to demonstrate by philatelic objects, that his dreams of spaceflight and spacemail came true.

With best wishes for a very successful 'Stephen Smith Centenary Celebration'.

It is one of the aims of FISA, the International Federation of Aerophilatelic Societies, to cherish the memory of the pioneers of Aerophilately. Stephen Hector Taylor-Smith, commonly known as Stephen Smith, was one of them. Collectors all over the world are familiar with his name because he was a pioneer and historian of Aerophilately and also the first experimenter of Rocket Mails in India.

It is a great privilege and honour for me to express the gratitude of all aerophilatelists for the initiative of the ISPC Friendship Society and to extend our sincere wishes for a successful Centenary Celebration.

Roland F. Kohl
President FISA

GOOD WISHES

I am very happy to learn that the philatelists of Calcutta are organising the birth centenary of Stephen H. Smith. I wish the function all success.

Col. L. G. Shenoi

STEPHEN SMITH'S LIST OF OFFICIAL, HISTORICAL AND EXPERIMENTAL FLIGHTS

by Dr. D. J. Banerjee

Some time in the early thirties Stephen Smith published a list of First Flights in India in the shape of a catalogue, with the title given above. This was published by the Indian Air Mail Society without any date, writer's or printer's name.

The list was upto 1931. I have a copy which was presented to Late Mr. Jal Cooper. The catalogue does not give detail about cachet, postmark etc, but has valuations of all covers written in red ink by Smith himself.

For the Dr. Smith Centenary, I take this opportunity to update this list with a little detail to the flights, some of them did not carry mail, some information but about postmarks and other useful information.

1910 (Dec. 28) First Aerial Display in India. Aerial Exhibition at Calcutta by Baron de Caters and Mons. Jules Tyck. No mail carried.

1911 (6 Feb.) Aerial display of Bristol biplanes at Barrackpore Race Course, near Calcutta by Capt. Dixon and Mons. Henri Julero. No mail carried.

1911 (Feb. 18) First Official Aerial Post in the World. Carried by Mons. Henri pequet in Humber-Sommer biplane (Smith described the plane as a de Havilland biplane) from Allahabad to Naini. Special official cachet in red. Total number of covers and cards carried were 6500. A large card depicting the pilot and the machine and signed by the aviator were flown. Only a few exist.

1913 (Jan. 8) Great Calcutta Aerial Exhibition. Flight by French aviators Mons. Marc Pourpe and Mons. Verminck. Special cards inscribed "GREAT AERIAL EXHIBITION 8TH JANUARY 1913 - MESSRS. G. VERMINCK & M. POURPE - A SOUVENIR FROM 20,000 FEET ABOVE CALCUTTA - PRICE Re. 1. were air-dropped. Only six are believed to exist.

1918 (Nov. 29 to Dec. 12) First flight Egypt - India, made by Capt. Ross Smith from Heliopolis (Cairo) to Karachi in Handley Page 0/400. During December the aircraft continued it's journey to Delhi, Allahabad and Calcutta. 43 covers for Karachi bear a special cachet "BROUGHT BY FIRST AERIAL MAIL CAIRO - KARACHI 10TH DECEMBER 1918".

About 30 letters destined for Delhi bear "CARRIED BY FIRST AERIAL MAIL CAIRO - DELHI DEC. 1918".

1918 (Dec. 13) First England - India flight began. Major A.S. Maclaren and Capt. Robert Hailey flew from Martlesham to Karachi in several stages, in a Handley Page V1500 biplane, 'The Old Carthusian'. The plane arrived at Karachi on January 16, 1919. A few items of mail bear a special cachet with the date altered in manuscript "FIRST THROUGH AERIAL MAIL GREAT BRITAIN TO INDIA KARACHI 17.1.1919." in three lines.

1919 (Jan. 9) Military flight Baghdad - Delhi. About 50 letters from Baghdad and Basra were carried in this flight. Cachet impressed in red-violet on the front of the letter and another on the back. Only six are known to exist.

Front cachet "F.P.O. 55 9 JAN 19" in circle and POSTAL SERVICE M.E.F. AERIAL POST BAGHDAD - DELHI PER HANDLEY PAGE AEROPLANE in four lines.

Cachet on the back in circle "CARRIED BY AERIAL MAIL BAGHDAD - DELHI JANY 1919".

1919 (Oct. 14) Etienne Poulet and Jean Benoist left Paris in a Caudron G4 'La Mouche' (The Fly) for Australia. The flight was abandoned at Moulmein, Burma on 9 December. Manuscript notations and a three line cachet applied to covers.

Two different types of cachet were applied in purple "PAR POSTE DE'AIR / PAR FAVEUR DE'M POULET" and "BY AERIAL POST THRO / M POULET".

1919 (Nov. 12) Ross Smith, Keith Smith, J.M. Bennett and W.H. Shiers left London in a Vickers Vimy O-EAOU and arrived in Darwin on 10th December winning the £10,000 England - Australia Air Race. Mail was taken aboard at England and at all intermediate stages including India. Some covers received a three line cachet applied by Keith Smith. Some were signed by the crew members and some bear stamps of different countries and of Australia.

1920 (Jan. 8) R.J.P. Rarrer and J.C. McIntosh, originally air race entrants left London in a DH9 'PD' and arrived in Darwin on 21 August. They brought a few items of mail from Chahbar, Persian Gulf to India.

1920 (Jan. 23) Karachi - Bombay Air Post. An experimental air post service was started from Karachi to Bombay, with a night stop at Rajkot, by DH 10s of 97 Squadron R.A.F. An air surcharge of 12 annas per ounce of mail were levied. Special cachet in black applied to the mail. A total of 14 trips were made upto 9th March, when services ceased sustaining a loss of Rs 60,000. Total mail carried 3730. Stephen Smith's figures are 2729.

1920 (Feb.) First newspaper flight in India. From Bombay to Poona by Nieuport Nighthawk G-EAEQ. No mail known.

1922 (May 24) London - Lukhifi Char (Sunderban) by Capt. Blake and Capt. Macmillan. This was a proposed world flight. But the seaplane crashed at the char, terminating it. A small number unofficial mail were carried.

1923 (Dec 5 & 6) Emergent flight Ambala - Simla. by R.A.F. Only official mail carried. Three known.

1924 (May 7) Karachi - Pipar by Portuguese aviators. Plane left Lisbon for a projected flight to Macao. On arrival at Karachi a small bag of mail was picked up. But the machine crashed at Pipar and the mail was posted at Jodhpur and sent on by ordinary route.

1924 (Nov. 14) Pioneer Dutch flight from Amsterdam to Batavia by Van der Hoop. Mail Carried Calcutta - Akyab, covers prepared by Stephen Smith. 25 carried.

1925 (Jan. 19) Demonstration flight by R.A.F. Risalpore - Calcutta and back under the command of Wing Commander R.C. Pink. A large circular unofficial cachet was applied in pink

towns in India further than Karachi, until 3rd June 1933. When the mail carriage
was recommended.

Stephen Smith's catalogue ends with the Emergency flight of Delhi flying club.
I have carried through the flights upto the end of 1931. It seems Dr. Smith in
his catalogue has missed many earlier important flights, some of them appear
in his books, Indian Airways Parts I to III, others are not mentioned at all. Still
it was a great effort to piece the flights of the pioneer aviators, whose adven-
turous spirit brought them to India and without the First Flight Covers so
meticulously prepared by Dr. Smith, many would have gone to oblivion.

The plant that has grown
into many, many trees.

The Tata Steel plant is, indeed, unique. Surrounded as it is by the beautifully laid-out city of Jamshedpur with its tree-lined avenues and parks that reflect the Company's deep commitment to the environment.

A commitment that is reflected in Tata Steel's active efforts to preserve the

ecological balance in its environs. Afforestation programmes and reclamation of barren lands have been undertaken in the areas around Jamshedpur and the Company's mines and collieries.

Tata Steel. The Company that believes industry must flourish hand in hand with Nature.
